To be crucial to - enabling you
To remember - There's nothing - You cannot do

Rhythm and rhyme - form patterns you see
Like habits - they're patterns of energy - Giving spoken words an ability...
To sink deep into - Your cellular memory
That's your subconscious held - In the cells of your body

Do you want freedom from fear? - From this and from that
Are you keen to get fit? - Want to shift fat?
From quit smoking to - self-worth or weight loss
Memory enhancement - To firing your boss

Gaining clarity on - Your number one goal
Uniting all parts - Of your fragmented Soul
Hypnosis is key - For it allows you to be
Engaging and accessing - easily...

Your subconscious mind - Where you will find...
The answers you seek - Through words that I speak
Empowering words that benefit you
Whilst being gently - guided into...

A deeply relaxed - and very safe space
Where powerful - positive - changes take place
Clearing what's bothering you today
Dissolving negative feelings away

For there is a reason - you've come across me
A master in thought-feeling frequency
To turn your concerns - into history
For hypnosis can change - any old story

Whether habit of thought - Or habit of feeling
Or a behaviour - That's unappealing
I promise to trigger a release in you
With just the right words - that will move through...

Into your heart and into your mind

But don't believe me - for you will find...
